## Villas On The Beach 301: Blue Serenity

\$2,895,000

Step into Villas On The Beach 301: Blue Serenity, and be mesmerized by the deep blue ocean view extending from floor to ceiling and all the way to the horizon. The only sound is the rustling of palms and lapping of waves a mere 60 feet from your balcony.

On the Platinum coast of Barbados, this is the only luxury beachfront property of its kind under US\$2.9 million: A fully furnished, modern 4 bedroom/4 bath apartment with a stunning ocean-front location just steps to Holetown's charming Chattel Village, Massy grocery store, and Tides Restaurant. No location could be more convenient or more coveted.

This perfectly situated third-floor corner unit offers 50 feet of ocean frontage and whitewater views from the patio and both ocean-front bedroom suites. As a result, you'll enjoy the wonder of watching soft blue waves folding into each other even as you awake.

Villas on the Beach in Barbados is a premier 18-unit condominium complex with 24-hour security, gym, full-service generator, and 360° concierge services available.
